INTERNATIONAL HOT SPRING HOTEL

Oasis Bahariya Giza - Egypt

The International Hot Spring Hotel is a *** star category hotel located 365km SW of Giza at Bahariya Oasis in Egypt's Western Desert. As well as its own Hot Spring it offers comfortable facilities: Gym, Sauna & Massage and Sunroof. The quiet and the climate of the desert guarantee a restful stay during the season from September to May.

The International Hot Spring Hotel was established in 1995 by the owner, the German Peter Philipp Wirth, who runs his "caravan station" with his Japanese wife, Miharu. The Hotel is located at the foot of the Black Mountain which overlooks the whole of Bahariya, and is close to EL BAWITI at the center of the Oasis. The palm groves invite the visitor, as do the well-preserved tombs and temple ruins from the Pharaonic era, the only Temple to Alexander the Great in Egypt, and the world famous "Golden Mummies" discovered as recently as 1996.

The **HOT SPRING** in the courtyard of the reception area has a water source which pours from the depth of 1200m at a temperature of 45° C. The water has a high iron content, which contributes to its rusty color. A soak in the spring is a wonderful relaxation from the stresses of everyday life. It brings relief to those who suffer from arthritis and rheumatism.

All **36 Rooms** have a bathroom and are equipped with electric heaters during the winter and fans in the summer.

The **Restaurant** offers simple oriental dishes prepared with healthy ingredients from the local Oasis market.

The **BEDOUIN TENT** is inside the spacious garden. Here a touch of local flair can be found: you might enjoy listening to the original Bedouin music from Bahariya Oasis and smoking a water pipe. In daytime it can serve as a seminar and conference room as well as for wedding banquets. You might also to sit round the open fireplace close to the restaurant, or climb the steps up the Black Mountain to enjoy the panoramic view.
